EDUCATION

McPherson University   Ogun, Nigeria
Bachelor of Science, Software Engineering   *Sept. 2022 – June 2026*

EXPERIENCE

Software Developer   Sept. 2024 – Present
Pauprix Pharmacy   *Lagos, Nigeria*
* Developed software for web and mobile operating systems using Flutter Framework
* Achieved faster development cycles using Agile methodologies, including Scrum processes
* Implemented packages like Agora for real time messaging, Csv package converter, for converting excel sheet to noSQL format, and so many more packages
* Saved time and resources by identifying and fixing bugs before product deployment
* Enhanced user experience through designing and implementing user friendly interfaces
* Optimized application performance by conducting regular code reviews and refactoring when necessary

Intern   July 2024 – Present
DriveLink   *Ikeja, Lagos, Nigeria*
* Gained valuable experience working within a specific industry, applying learned concepts directly into relevant work situations
* Supported staff members in their daily tasks, reducing workload burden and allowing for increased focus on higher-priority assignments
* Analyzed problems and worked with teams to develop solutions
* Utilized strong communication abilities during presentations which led to increased understanding among colleagues regarding project goals and objectives
* Collaborated on stages of systems development life cycle from requirement gathering to production releases

Hackathon   July 2024 – Present
ShopEase   *McPherson University, Nigeria*
* Collaborated with cross-functional team to deliver high-quality product on tight deadlines
* Participated in software field testing to verify performance of the project
* Achieved faster development cycles using Agile methodology
* Analyzed problems and worked with teams to develop solutions
* Utilized strong communication abilities during presentations which led to increased understanding among colleagues regarding project goals and objectives
* Gained hands-on experience in various software programs, increasing proficiency and expanding technical skill set

PROJECTS

Arbeit | *Flutter, Firebase, Dart, SQL*   June 2022
* Developed mobile application using Dart programming language, with Flutter framework
* Implemented Firebase for authentication; providing sign in options with Google, email, twitter and many other social media platform
* Used GitHub as code versioning system, to monitor and control pull requests and user side updates
* Enhanced user experience through designing and implementing user friendly interfaces

myShop | *Flutter, Firebase, Dart*   June 2023
* Developed mobile application using Dart programming language, with Flutter framework
* Implemented Firebase for database and authentication
* Implemented Native device features in cross platform usage
* Used GitHub as code versioning system, to monitor and control pull requests and user side updates
* Enhanced user experience through designing and implementing user friendly interfaces

Technical Skills

Languages: Dart, Java, C/C++, SQL, JavaScript, HTML/CSS, Golang
Frameworks: Flutter, React, WordPress, Material-UI
Developer Tools: Git, Docker, Firebase, SupaBase, MongoDB, Google Cloud Platform, VS Code, Visual Studio, Eclipse
